IEWISH NEW YEAR.

Day Will Be Properly Observed

Day Will Be Properly Observed
On Friday Next.

Rosh Hashannah, or the Jewish New Year's Day, will begin on Priday, September 20th, at sunset, and will continue until sunset of the following day.

It is not generally known that this is not in reality the first day of Tishri, the seventh month. According to the Jewish calendar, this is the year 5665, and the new year will be 5606.

The Jews originally observed four new years. The first was on the first day of Nisan, the first month, and was the civil new year, or the day from which the years of a king's reign were counted.

The second was on the first of Eliul, the sixth month, and was the day on which the cattle were taken account of and the tithes set apart for the Lord. The third new year was the one which they retain to-day. The fourth was on the fifteenth day of Tishri, the seventh month, and was the day set aside for tree planting.

As the years passed the Hebrews no longer had a king, nor needed a day for taking account of the cattle, nor for planting of trees, so three of the new year celebrations passed into memories.

The New Year which they now celebrate is, with the exception of the Day of Atonement, which comes ten days later, the most sacred holiday in the year.

On that day the Hebrew recalls his

On that day the Hebrew recalls his past sins and calls on God to forgive him. On that day the ram's horn is blown at the synagogue as a reminder to the people of their sins. On that day God judges his people and listens to their prayers for forgiveness.

Rosh Hashannah is observed by all Hebrews. No Jew attends to any business on that day. Hebrew shops are closed and Hebrew industries cease, and every man, woman and child attends the synagogue for worship.

Ten days later comes the Day of Atonement, when God forgives their sins and

Henrico Citizens Make Their Position Understood on This Matter.

RUNNING THE TRAMPS OUT

County Policemen Have Recently Been Unusually Vigilant.

Intensely interested are the citizens of that section of Henrico county lying two miles east of the city limits and between Chimborazo and Oakwood, over the matter of annexation to Richmond, Since the meeting on Monday night, when an able address was delivered by Mr. Charles V. Meredith, of the city, the citizens of the Annexation and Improvement League have been diliegntly at work with petitions, and they will go to the court with a solid backing of both voters and property owners. Two petitions, or rather one petition setting forth both the property owners, who perhaps reside in other parts of the county or mayhaps in Rich-mond, and the qualified voters, is pre-

mond, and the qualified voters, is presented to the citizens.

Thus far it is said that only two residents of the territory affected have declined to sign the petition. One of those who refused did so, he said, upon business grounds; he was a friend of both sides and did not desire to make enemies. The other one who refused to sign the petition did not vouchsafe any reason for his determination. But there are over five hundred who want the territory annexed.

Members of the league wish it distinctly understood that, as a league, they are not attempting nor have they attempted to drive any of the county, officers into supporting the movement. They have made no threats, as a league, as to what the members will do at the next election.

Individually, several of those in the territory named, and who are deeply interested in the proposition to annex to Richmond, have expressed the opinion, and naturally so, that those who were against them now could hardly expect their patronage in the future. This is the extent of any threats that have been made.

Harry, one brother, is serving time for housebreaking, and Tom Robinson, another brother, robbed a postoffice, Both were sent up since May of this year.

Various Suppositions As to Yesterday's Work That Are Plausible.

The public seems to have lost its interest in the doings of the grand jury of the Hustings Court that has in hand the work of investigating the alleged crookedness practiced in the recent city primary election. The jury met at the appointed hour yesterday morning and its departure from the Hustings Court room to the room on the upper floor in which they deliberate, was noticed by very few people. In fact the attendance upon the opening of the court was confined entirely to the people who had to be there in the capacity of court officials, jurors, defendants or witnesses.

Counsel Will Argue Against City Owning Electric Plant at Present.

LARGE INVESTMENTS HERE

In the Interest of His Vast Properties, Mr. Gould Asks a Hearing.

It was rumored on the streets on yeserdny that Frank Jay Gould and Miss Helen Miller Gould, who are largely

terday that Frank Lay Gould and Miss Helen Miller Gould, who are targely interested in the street railway and lighting properties in this city, had requested the Committees on Finance and Electricity of, the Common Council to be heard with respect to the plan now being considered by these committees for the establishment of a municipal lighting plant in Richmond.

A representative of the Times-Dispatch called on Mr. J. B. Wood, Chairman of the Committees on Finance and Electricity, and in response to an inquiry as to the truth of the rumon, Mr. Wood stated that he had received a letter from Mr. Henry W. Anderson, of the firm of Munford, Hunton, Williams and Anderson, counsel for Mr. and Miss Gould, requesting that they be granted a hearing upon this proposition. He further stated that he would call a meeting of his committees for Monday afternoon to consider and act upon the request.

Mr. Anderson's Letter. Mr. Anderson's Letter.

Mr. Anderson's letter was as follows:
Richmond. Va. Sept. 25, 1905.
J. B. Wood, Esq., Chairman of
Committee on Finance and Committee on Electricity, Richmond City
Council:

Council:
Dear Sir,—I notice from the papers
that the sub-committee from the
Committee on Finance and Electricity have instructed the city attorney

to prepare an ordinance to provide for the construction of a municipal inghing plant for the city of Richmond. I assume that this matter will in the near future come before the Committees on Pinance and Electricity for consideration, and therefore, write to ask that you will, if consistent with the rules of your committee, give me, as counsel for Mr. Frank Jay Gould and Miss Helen Miller Gould, an opportunity to be heard upon this measure.

As you are aware, the corporations which have herstofore owned and operated the electric light plants in Richmend, are now in Houldation, and their properties in the hands of receivers of the United States Court. These corporations are not, therefore, in a position to present their side of the committees, or to take any part in the discussion.

My clients, Mr. and Miss Gould, are only holders of the securities and obligations of these corporations; it is, of course, impossible to say whether in the final re-organization they will control these properties or not. They have, however, at the present time, approximately \$5,000,000 in cash invested in this community, largely in the plants owned by the corporations above mentioned. Since according to their view, the establishment of the proposed municipal plant would be very injurious to their niterest, especially at this time, while it would be, as they think, of no benefit to the community they feel justified in view of the above facts, in asking that the committee would give them and opportunity to present through me or other representatives the facts and argument upon which their conclusions are based.

We are now having the necessary data collected and hope to be able in the near future, if permitted to do so, to present to the committees some facts which we trust will be helpful to the members of the council in reaching that collected and hope to be able in the near future, if permitted to do so, to present to the committees some facts which we trust will be helpful to the members of the council in reaching their conclusions

Mr. Gould's Reasons.

When seen later at his office, Mr. Anderson stated that he did not care to discuss the facts or arguments which would be presented to the committee, if a hearing were granted, until after they had been heard by that body, but gave the following statement as to the reasons which actuated Mr. and Miss Gould in asking for the hearing:

"Mr. Gould hesitated for some time before deciding to take this action, fearing that it might be misunderstood. The agitation of a municipal light plang; at this time, however, is very injurious to his large interests in the existing plants, and a serious embarrassment to his efforts to reorganize these properties, place them on a sound financial basis place them on a sound financial basis and provide for their future development. It interferes also with his plans for the development of the properties on Belle Isle, which have been considerably enlarged since he took control. In addition to this, he feels confident from his investigations that a municipal light plant will not prove a profitable investment for the city.
